Bring Balances Forward

Balance-forward System

- AR records show a customer's balance - current and past-due and current account activity.
- Monthly statements display previous balance, payments, and balance forward which is added to new charges to get the current balance due.
- Unpaid current balances are rolled into the past-due balances.
- Electric and gas utility companies typically use balance-only systems.

balance forward system.

Process of ledger

For Opening balance, "Balance Brought Down/Forward" is used.

For Closing balance, "Balance Carried Down/Forward" is used.

The closing Balance is of the side having "higher total"

Generally "Nominal Accounts" are not balanced

Post-Closing Trial Balance Financial Accounting

About This Collection

The gallery opens with a clean post-closing trial balance feel, showing a current account balance that rolls forward like a balance brought forward in a ledger. Numbers shift across a United States current account balance chart from 1960 to 1998, giving a quiet rhythm to the visuals. FreeAgent screens flicker beside closing entries, while the balance of payments and capital account motifs frame each scene. View the full gallery via the link above.
