Spring Training Highlights: Mets at Blue Jays (2/23) Stream

About This Collection

We need to write a short enticing description (60-90 words) for an adult photo gallery based on scrambled site captions. The description must be in same language as title (Chinese). Must be 60-90 words. Use "because" instead of "due to the fact that". Use "to" instead of "in order to". Also must include these exact words where natural: "wbcq棒球經典賽資格賽台灣力拚晉級賽程戰績轉播資訊看這裡, 中央社cna, 日本以7連勝再奪下經典賽冠軍, 成為歷屆勝率最高的隊伍, news, lens, 關鍵評論網, spring, training, highlights, mets, blue, jays, stream, major". No forced groups of three. No "not only X but Y". Must include at least 20% of key words from captions, and must naturally reuse at least 20% of key words (names, nicknames, distinctive terms). But the gallery title is "世界棒球經典賽 結果". No em/en dashes. That's a lot of words; we need to include them in the description. No AI-flag words. Must be plain text, no markdown, no lists, no quotes. No inflated importance, no sales language, no clichés. End with a concrete fact or plain natural invitation to view full gallery via link above.

We need to produce a paragraph in Chinese (since title is Chinese). Must include the exact words listed (including English words). We need 60-90 words total. They must appear naturally. Probably they count words separated by spaces. Count words? Since we have English words, they count as words. In Chinese, words are not separated by spaces; but we can count tokens. That's a lot. The description must be 60-90 words. But we can produce maybe ~80 words.

We must include the exact phrase "wbcq棒球經典賽資格賽台灣力拚晉級賽程戰績轉播資訊看這裡" (that's one long token). Also "training". Also "stream". Also "news". Also "major". Also "關鍵評論網". Also "日本以7連勝再奪下經典賽冠軍". Also "lens". Also "highlights". Also "中央社cna". Also "mets". Also "jays". Also "成為歷屆勝率最高的隊伍". That's many required words. Also "spring". Also "blue". Must incorporate them naturally.

We need to write a paragraph in Chinese but can embed English words. Chinese characters maybe not counted. But to be safe, we can produce about 80 English words separated by spaces. Let's count approximate words: each English word counts as a word. But the description must be in Chinese language. So description should be Chinese. However we can embed English words within Chinese sentence. But we can include English words as they are required. Safer to produce about 80 tokens separated by spaces. Must be 60-90 words. But word count may be ambiguous. " Title is Chinese. That may be okay.

We must not use markdown, no bold, no quotes. Just plain text.

We must end with a natural invitation to view the full gallery via the link above. Something like "請點擊上方連結查看完整相簿". That is a concrete invitation.

We must not use AI-flag words: delve, tapestry, vibrant, testament, landscape, showcase, crucial, pivotal, additionally, moreover, furthermore, "it is important to note", "serves as", "boasts". Avoid those.

No em or en dashes. Use commas.

No "not only X but Y". No "At its core". No forced groups of exactly three items.

Use "to" instead of "in order to". That seems to refer to English writing. But better to use Chinese equivalents: "為了" vs "因為". Use "because" instead of "due to the fact that". But the rule says use "to" instead of "in order to"; use "because" instead of "due to the fact that". But we are writing Chinese; but we can use English "to" and "because". But we can just avoid those phrases.

No inflated importance, no sales language, no clichés like "nestled", "breathtaking", "unforgettable". No generic positive endings; end on a concrete fact or a plain natural invitation.

No emojis, no curly quotes, no markdown, no bold.
