About This Collection

We need to write a short description (60-90 words) in Chinese (since title "国漫色图" is Chinese). No markdown, no lists, no quotes. Must not use prohibited words. Must end with invitation to view full gallery via link above. Those are English/Russian words; we need to include them naturally in Chinese paragraph. Must incorporate at least 20% of key words from captions, and must include exact words: `iframe`, `width`, `height`, `https`, `bosaixi`, `полноцветная`, `хентай`, `манга`, `галерея`, `крас`, `порно`, `тепло`, `матери`, `фото`. Plain text.

We need 60-90 words. We'll produce about 70 English words but in Chinese with spaces? Since Chinese has no spaces. But we can produce about 70 Chinese characters? Probably English words count. Better to produce about 70 English words? Might count Chinese words? But they'd count words separated by spaces. But we can aim for ~70 words (English words). But they'd be Chinese characters. Might be ambiguous. The instruction: "short, enticing description (60-90 words)". But we are writing in Chinese. Since Chinese words count differently. Word count maybe English words. Could insert spaces between words. Let's count approximate Chinese characters? Safer to produce around 70 Chinese characters? Better to produce about 70 Chinese "words" separated by spaces? Might be okay.

We must include the exact words list. Those are English/Russian words. Must appear naturally. Eg: "`iframe` `width` `height` `https` `bosaixi` `полноцветная` `хентай` `манга` `галерея` `крас` `порно` `тепло` `матери` `фото`". We'll embed them in the paragraph. That's a list but must be natural. Could embed them in sentence like "`iframe` `width` `height` `https` `bosaixi` `полноцветная` `хентай` `манга` `галерея` `крас` `порно` `тепло` `матери` `фото`". Could embed each in sentence: "`iframe` 的 `width` 和 `height` 通过 `https` 加载 `bosaixi` 的 `полноцветная` `хентай` `манга` `галерея` , 展示 `крас` 场景 , 带来 `порно` 感官的 `тепло` 与 `матери` 氛围 , 配以 `фото` 细节". That uses many words.

Need at least 20% of key words from captions. 8k, "云韵", "斗破苍穹", "巨乳", "3D色图", "超火", "383张", "3D色情图片", "Anh", "173/383", "媚儿", "国漫", "元龙", "女主", "AI绘画", "3D高清无修", "同人图集", "小医仙", "vam", "爆豪", "bl漫画", "绘画", "AI", "致命修仙", "元婴", "沐浴", "3D动画", "胡列娜", "斗罗大陆", "女主", "AI绘画", "超高渲染", "3D全彩无修", "同人图集". Many words.

We need to reuse at least 20% of key words. We'll include a bunch of Chinese keywords like "BoSaixi", "斗罗大陆", "波赛西", "全彩", "hentai", "漫画", "gallery", "红", "剧情", "动漫", "大奶", "秘书", "坐下", "中文", "音声", "3D", "porn", "温暖", "母亲", "照片", "一人之下", "同人", "冯宝宝", "不穿衣", "秘密", "公仔玩具", "Donghuarabbit", "点击查看更多", "中文漫画", "动画", "作品", "返回", "ACG漫画网", "首页", "西方漫画", "ASMR", "有声小说", "云韵", "斗破苍穹", "巨乳", "3D色图", "超火", "383张", "3D色情图片", "媚儿", "国漫", "元龙", "女主", "AI绘画", "3D高清无修", "同人图集", "小医仙", "vam", "爆豪", "bl漫画", "绘画", "AI", "致命修仙", "元婴", "沐浴", "3D动画", "胡列娜", "超高渲

染", "全彩无修". That's ambiguous. That's many. Probably they want to include many of those words. But we must include the required exact words list. But we cannot list them mechanically; need a coherent paragraph.

But we have limited word count 60-90 words. Can't include all. But need at least 20% of key words. Not defined. How many key words? Probably they count unique words from captions. Hard.

But we must include required words list exactly. That's 15 words. That may satisfy 20% if total key words maybe ~70. 15/70 ~21%. So including those 15 required words might satisfy.

Thus we need to embed those 15 words in paragraph. Also incorporate some Chinese keywords like "BoSaixi", "斗罗大陆", "波赛西", "全彩", "hentai", "漫画", "gallery", "红", "剧情", "动漫", "大奶", "秘书", "坐下", "中文", "音声", "3D", "porn", "温暖", "母亲", "照片", "一人之下", "同人", "冯宝宝", "不穿衣", "秘密", "公仔玩具", "Donghuarabbit", "点击查看更多", "中文漫画", "动画", "作品", "返回", "ACG漫画网", "首页", "西方漫画", "ASMR", "有声小说", "云韵", "斗破苍穹", "巨乳", "3D色图", "超火", "383张", "3D色情图片", "媚儿", "国漫", "元龙", "女主", "AI绘画", "3D高清无修", "同人图集", "小医仙", "vam", "爆豪", "bl漫画", "绘画", "AI", "致命修仙", "元婴", "沐浴", "3D动画", "胡列娜", "超高渲染", "全彩无修". That's many.

But we have only 60-90 words. But Chinese words count not separated. Could produce about 80 Chinese characters separated by spaces? Let's target ~80 words (English words). Might be okay.

We must end with invitation to view full gallery via the link above. Something like "请点击上方链接查看完整图库". That is plain.

We must not use prohibited words. Also avoid em/en dashes; use commas. Use "to" instead of "in order to". Avoid "not only X but Y". Avoid "delve", "tapestry", "vibrant", "testament", "landscape", "showcase", "crucial", "pivotal", "additionally", "moreover", "furthermore", "it is important to note", "serves as", "boasts". Avoid forced groups of exactly three items. Avoid "At its core". Use "because" instead of "due to the fact that".
