更讚的MR 裝置來了！Meta 發表Meta Quest 3 頭戴式混合實境裝置台灣10月發貨- JazzNews

About This Collection

We need to write a short enticing description (60-90 words) for an adult photo gallery based on scrambled site captions. Must reuse at least 20% of key words from captions (names, nicknames, distinctive terms). Use "to" instead of "in order to". No generic positive endings; end on concrete fact or plain natural invitation. No "not only X but Y". Plain text only, no markdown, no lists, no quotes. But the captions are about XR, VR, MR, AR tech. No forced groups of exactly three items. No inflated importance, no sales language, no clichés. No "At its core". No

em/en dashes. Must include exact words: differences, between, blog, applied, 更讚的mr, 裝置來了, meta, 發表 meta, quest, 頭戴式混合實境裝置台灣10月發貨, jazznews, 英文大哉問, 如何區分vr, 這些虛擬技術, arvr. The description must be in same language as title: Chinese (Traditional). No emojis, no curly quotes, no markdown, no bold. Must end with natural invitation to view full gallery via link above. The gallery title is "mr 虛擬實境". Use "because" instead of "due to the fact that". Must include these exact words where natural. No AI-flag words. Vary sentence length naturally, state things directly, keep every claim supported by provided captions.

We need 60-90 words. Let's count approximate. We'll produce maybe ~80 words.

We must include many exact words: differences, between, blog, applied, 更讚的mr, 裝置來了, meta, 發表meta, quest, 頭戴式混合實境裝置台灣10月發貨, jazznews, 英文大哉問, 如何區分vr, 這些虛擬技術, arvr. That's 15 tokens. Must incorporate them naturally. Need to keep total 60-90 words. That's a lot of words; each counts as a word. Need total 60-90 words, so we need about 45-75 more words. That's many words. Let's count required words: differences (1), between (1), blog (1), applied (1), 更讚的mr (maybe counts as one token), 裝置來了 (1), meta (1), 發表meta (1), quest (1), 頭戴式混合實境裝置台灣10月發貨 (1), jazznews (1), 英文大哉問 (1), 如何區分vr (1), 這些虛擬技術 (1), arvr (1). If each counts as a word, we have 15 words already. Must be coherent paragraph.

We must avoid prohibited words. Avoid "vibrant", "testament", "landscape", "showcase", "crucial", "pivotal", "additionally", "moreover", "furthermore", "it is important to note", "serves as", "boasts". No sales language. Avoid forced groups of three. No generic positive endings; end on concrete fact or plain natural invitation. Ensure not using "delve", "tapestry", etc. No inflated importance. Avoid "not only ... Avoid em/en dashes. Use "because" not "due to the fact that". Avoid "At its core". Use commas. but". Use "to" not "in order to". No clichés like "nestled", "breathtaking", "unforgettable". End with invitation to view full gallery via link above.

We need to write in Chinese (Traditional). Must include English words like differences, between, blog, applied, meta, quest, jazznews, arvr, etc. Those are English words; but we can embed them in Chinese sentence.

We must ensure at least 20% of key words from captions reused. The required words list ensures that.

Now craft paragraph ~80 words.

Let's draft Chinese paragraph with those words.

Count words: We'll count each token separated by spaces. The instruction likely counts words separated by spaces. But we can include English words as required. Word count may be ambiguous. But they ask same language as title (Chinese). Chinese words not separated by spaces typically, but we can treat each Chinese token as a word? Safer to produce about 80 English words? But we can include spaces between Chinese words for counting. We'll aim for ~80 tokens separated by spaces.

We'll write something like:

"differences between blog applied 更讚的mr 裝置來了 meta 發表meta quest 頭戴式混合實境裝置台灣10月發貨 jazznews 英文大哉問 如何區分vr 這些虛擬技術 arvr 介紹 mr 虛擬實境 內容 並邀請 點擊 上方 連結 查看 完整 相簿"

But that's just list, not coherent paragraph. Need coherent paragraph.
